

Global Music and Footage Services Information 2019

Discovery Global Music Services

- Global Music Services (GMS) is a team of music supervisors, music composers and music administrators who curate DMS music content, create custom music compositions and provide general music support for production companies working on Discovery programming.
- Discovery Music Source (DMS) is a dynamically-growing production music library available at no cost for producers creating content for Discovery networks productions around the world.

HOW TO ACCESS DISCOVERY MUSIC SOURCE? Register online or visit the site as a guest at www.DiscoveryMusicSource.com

WHO DO I CONTACT FOR SUPPORT? Our in-house music supervisors can provide brand expertise along with customized playlists based on your specific needs. They can also access music resources not yet online, assist with challenging budgets, and offer composer suggestions for custom music that will help distinguish your show.

For general Global Music Services (GMS) inquiries, including custom music composition contact:

Footage Services

- Register on www.DiscoveryAccess.com. It only takes about one minute.
- Once you have an account, you can create multiple clip-bins (selects) and share those clip-bins. You can download comps anytime, gratis.
- If there is a clip you wish to license for your production, move it into your shopping cart.
- Select the rights you need (entertainment, factual, all media, worldwide, in perpetuity) and the delivery format for your hi-res file.
- Email sales@discoveryaccess.com and ask for a price override. Mention the show you are working on so we can verify it's a commission or co-production, and if the account you are using isn't under your name, specify the registrant's name so we can find your cart.
- Someone on our team will override the external license rate and the amount shown will be the **\$10 per clip** fulfillment fee only.
- Check the "My Orders" page and you'll see a copy of your order. When the file is available for download, the green "Download" button will appear.
- You have 72 hours to download the clips. After that period, you will have to pay again.
